

SYSTEM AND METHOD FOR REMOTE DOCUMENT RETRIEVAL

ABSTRACT OF THE DISCLOSURE

5

A system and method for document retrieval are provided. The present method comprises the steps of receiving a request email message from a requesting device via a network, the request email message embodying a document request, automatically generating a response email message with at

10

least one document attached thereto in response to the document request, and, automatically transmitting the response email message to a destination address on the network.
